

## KOPENHAGEN COMENIUS PROJECT 3<sup>rd</sup> to 7<sup>th</sup> October

I was in Copenhagen for the Comenius project with 3 other students from our school.

### **Monday:**

After a flight of 1½ hours we arrived at our hostel in the evening. I really liked it, because it was so cosy and it was good for relaxing after an intense day of exercise. I slept in a room with Zoe. Although I barely knew her, we became friends during the week.

### **Tuesday:**

It took us half an hour to walk to the Ingrid Jespersens Gymnasieskole (school) and the first thing we all realized was that millions of people were riding their bikes to work or to school! When we finally arrived at the building my first thought was *wow, this school is huge!* It was the place where we met all the people from different countries: Portugal, Bulgaria, Spain, Italy, Turkey, Romania and Greece. After a nice “welcome to Denmark” we went to the gym hall and learned three different Danish dances, which was pretty funny.

We had a sandwich for lunch and then a tour through Copenhagen. At first it was very interesting when we saw the little Mermaid and some of the other sights, but after about 1½ hours of walking our feet started to hurt like mad. So we were glad that we could do a boat trip along the canal, which was very relaxing and interesting after this long day.

For supper we went to a pizza place and had some pizza. When we arrived at the hostel, we went to bed quite early.

### **Wednesday:**

Back to strength with a lovely breakfast we went to school again and watched the presentations of Italy and then Bulgaria. It was a bit hard to understand them, because they couldn't speak English very well.

After the lunch break we played badminton with the Danish students. We had a lot of fun! In the evening we had supper with all the students, while the teachers had a meeting in another restaurant.

## KOPENHAGEN COMENIUS PROJECT 3<sup>rd</sup> to 7<sup>th</sup> October

### Thursday:

When we got to school, Portugal and Spain held their presentations. Then we went in the gym hall and did some body storming. The Danish acting teacher announced a certain country and we had to explain it just with our body language. I really enjoyed it, cause it was something I had never done before. Then we had time on our own, so Emi, Zoe, Andy and I went through the

pedestrian zone and looked through all kinds of shops. For supper we met at the school again and had a barbecue all together and at eight o'clock we had a party in the gym hall with live music and entertainment. We had to say goodbye to everyone, because it was our last day together with all the other countries. :-)

### Friday:

On Friday we had a really relaxing day when we walked along the streets of Copenhagen. We also went to a museum about world records, which was fascinating. Then we went to the airport by train and had our flight home. Goodbye Copenhagen!
