SCHOOL RULES

We are proud to be part of a school that stands for openness and values cultural diversity. Teachers, pupils and parents are partners with differing responsibilities and we support each other at all times. Our policy of open dialogue allows us to voice our opinion without fear in every situation.

The school is our workplace and we spend a large amount of time together here. Therefore we treat the building and all its contents with respect, keep it clean and avoid wasting materials that are provided for us to use. We wear slippers in the building when told to do so. Chewing gum is neither necessary nor desirable during the school day.

We treat others and their belongings with respect and we are friendly and fair to one another.

We reject every form of violence, both physical and psychological, and we do not make ourselves complicit by turning a blind eye.

Electronic devices such as mp3 players and game consoles do not belong in school. Mobile phones may not be used during the lessons. The school accepts no responsibility for damage to or loss of any such devices. Dangerous objects are expressly forbidden.

Both teachers and pupils are entitled to an undisturbed break, but also to punctuality in the classroom.

As responsible members of the school community we are aware that misconduct has negative consequences.
