

Gabriel Adis Vilmos

The song **EU (how does it work?)** rap lyrics:

Yo AVG is here bro,

Ey ey ey ey ey, welcome to the EU, we'll present 27 countries to you. I can barely handle a presentation, look at Joe Biden, he leads a whole nation.

EU Parliament based in Belgium, Luxembourg and France

Countries that have many beautiful cars

705 members that's a lot defenders.

Representing the citizens of EU

To all citizens of countries, one word against them and they will kick you

David Sassoli, selected for 5 years and leader of the parliament

Eu Eu Eu One of the most important organisations for you

Eu Eu Eu Without it it would be a big loss too

The EU council, Brussels is the place that it is held

Highest level of political cooperation

Cristiano Ronaldo is my inspiration

Owned by a president named Charles Michel

But sometimes it is not going well

Making political and financial decisions

We are performing like on Eurovisions

EU EU EU one of the most important organisations for you

EU EU EU Without it it would be a big loss too

Again, in Brussels but this time it's the commission.

There are 26 of them what a formation.

President Ursula van de Leyen

Strong Belgian Woman

People like her are not so common.

Deciding and planning new laws in the EU continent

So that there isn't any illegal events

Making sure they follow them with their 99 pace.

How do they say Slow and steady wins the race

Training for EU policy

And implementing the budget so that it looks pretty like the Colosseum

EU EU EU one of the most important organisation for you

EU EU EU Without it would be a big loss too

Finally we arrived at the court of justice

Making sure that the EU laws are being complied with

Or sending people to prison where it isn't very lit

Connected with the commission

Together completing every mission

Based in Luxembourg

Classic lines there are, don't say a word, I'm talking now

EU EU EU one of the most important organisation for you

EU EU EU Without it would be a big loss too.
